Connecting your SedaoLive Rooms System to SedaoLive CLOUD

Step 1

Go to SedaoLive CLOUD www.sedaolive.com to create your account

Personalise your content by uploading a logo and two images

Search "SLR" in the template gallery

Choose the style or styles of interface you want and import those templates

Step 2

Connect Rooms screen(s) to your account

Get the 8 digit pin code from the panel

Select the Screens tab from your account

Select the Add/Plus icon on the toolbar

Enter the 8 digit pin code and press submit (you can name the screen per your filing convention)

Step 3

Set up our SedaoLive Exchange Room Resources (if you haven't already)

With your Screen connected select the add/plus magnifying glass icon on the bottom right of your thumbnail

Select the Advanced button with settings cog icon

Enter a Presentation from the drop down – the digital signage presentation that plays if the room is not in use (optional).   NB – this will come on after a time out set by "Primary room booking time out" drop down

- Room – is the Exchange room resource calendar associated with the location of the screen
- Room booking presentation – this is the style of interface you selected earlier (commencing with "SLR")

Select Save
